Revised by:	Director of Education Jun 15, 2015	Subject group:	TE9
Valid From:	Aug 1, 2015	Specialised in:	G1F
Version:	2		
Reg number:	2015/2300-313		

Intended Learning Outcomes (ILO)

On completion of the course, the student should

Knowledge and understanding

- demonstrate knowledge of various relationships between the experience of the practical work and the earlier

acquired theoretical knowledge in the education

- show an understanding for future tasks

Skills and abilities

- within the field of the education demonstrate an ability to apply the acquired knowledge in practical work

- demonstrate the ability to describe, analyse and document the practical work

Judgement and approach

- demonstrate the ability to reflect on the need for knowledge and skills based on experience of the client

Contents

The course content is linked to the courses that the student previously studied during their training. The contents may vary in form and very much depends on what operations the client operates.

Some examples:

- The student follows and contributes with knowledge of an ongoing project

- Study of the ongoing production

- Implementation of a variety of practical elements relevant to the type of education

- The student conducts professional development for staff of the client

Type of instruction

The course is conducted largely on a business, the public sector or in an organisation. The student works individually or in a small group. Introductory lectures and final presentation, written and oral on campus.

The teaching is conducted in English.

Prerequisites

General entry requirements and completion of the course Post Production, Flows and Processes I, 6 credits (or the equivalent).

Examination and grades

The course is graded Fail (U) or Pass (G).

Registration of examination:

Name of the Test	Value	Grading
Examination	27 credits	U/G

Course literature

The literature is preliminary until one month before the course starts.
